Subject: Recontamination Map

Bruce, here is the map you requested and a quantitative summary below.

Properties >400ppm Pb:

130 Total contaminated properties
105 have been previously excavated
11 either were sampled previously and came back clean or have never been
sampled
14 property owners refused excavation in the past

Properties between 300ppm and 400ppm Pb:

59 ~~59~~ Total contaminated properties
51 have been previously excavated
8 either were sampled previously and came back clean or have never been
sampled
4 property owners refused excavation in the past
